

# MS-T Semi-Automatic Strapping Machines

Effective and efficient answer to your packaging needs

## Maximizing performance and quality

For carton closure and reinforcement, Signode offers a range of plastic strapping machines. The MS-T is the ideal solution for your packaging needs.

## MS-T advantage

Due to reduction in manual input, MS-T reduces the probability of errors, ensuring :

- Uniform tensioning all around the package/bundle to maintain the shape
- Repeatability of tensioning by eliminating operator fatigue
- MS-T is also a cost-effective and safe solution as it eliminates the conventional metal clips - MS-T heat welds the joints

# MS-T Semi-Automatic Strapping Machines

For use with Contrax® Plastic Strapping

## MS-T features

- Solid robust construction with stainless steel table top
- Castor wheels for portability
- Auto-Power enables power savings and increases motor life
- Tension can be adjusted up to 45 kgs
- A cycle time of only 1.5 seconds increases the number of operations
- Ball Table Top option

## Applications

The machine is used for packaging of low and moderate volume products. Keeping in view the convenience during operation, the machine is operated at working table height. Be it a conveyor line or the shop floor, the portability of the machine ensures its versatility and flexibility.

## Service network

Signode India Limited has strategically located offices and distributors across the country to cater to your after sales service needs. With well trained engineers on hand, Signode India takes care of your service and maintenance requirements.

## Specifications

Dimensions	900 mm x 570 mm x 735 mm
Cycle time	1.5 secs
Strap joint	Heat Sealed
Power supply	AC 220 V, single phase, 50 Hz
Power consumption	200 Watts
Drive motor	¼ hp, 1440 rpm
Net Weight	100 kgs
Maximum Tension	45 kgs
